

**DESCRIPTION:**

This unique product, the result of the latest developments in concentrate technology, is designed to be easily blended into a highly concentrated suspension of bacterial spores. No special equipment, complicated multi-ingredient additions or extensive mixing times required! The diluted product provides an attractive alternative to costly deodorants and ineffective odor-masking agents. These special bacterial cultures do more than just cover odors - they eliminate the source of the odor. Natural enzyme-producing bacteria consume organic waste to eliminate malodors. They consume organic matter on most kitchen and bathroom surfaces, toilets, urinals, rugs and carpets. Destroy the source of all odors the natural way!

Wear eye protection, protective clothing, protective gloves.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a doctor, a POISON CENTER.

DISPOSAL

Offer empty container for recycling. If recycling is not available, discard container in trash.

WARNING: This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

*For industrial and commercial use only.

TOTAL SOLUTIONS®

BACTERIAL/ENZYME DIGESTANTS

ULTRA LIVE MICRO™ CONCENTRATE

Aqueous Bacterial
Suspension Destroys Waste
and Odors The Natural Way

- BIODEGRADABLE
- NON-TOXIC
- SALMONELLA FREE

WARNING

Causes serious eye damage.

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: One Gallon (128 fl. oz.)

Manufactured By: Total Solutions®
PO Box 240014 • Milwaukee, WI 53224 • 1-800-743-6417

DIRECTIONS:

TO FORMULATE INTO A HIGH COUNT BACTERIAL DIGESTANT: Dilute 5 gallons (19.1 liters) of this concentrate with 50 gallons (189 liters) of unsoftened water to make 55 gallons (208 liters) of ready to use product. The finished product will possess a bacterial content of 80,000,000 colonies per milliliter minimum. Blend well and package immediately.

TO USE DILUTED PRODUCT:

TO CONTROL SURFACE ODORS: Dilute 1:1 with tap water. Spray a heavy mist to wet the surface and allow to eliminate odors naturally.

CARPETS AND UPHOLSTERY: Remove as much soil as possible. Dilute the diluted product 1:1 with tap water. Spray to wet fibers thoroughly. Brush liquid into the material. Lay a damp towel over the area to keep it moist for at least 24 hours. Severe odors may require a daily treatment for up to 10 days.

USE IN PLUMBING: Treat drains with dosages varying from 2 to 8 ounces (60 to 240 mls.) per week to keep them free-flowing and fresh smelling. **NOTE:** Do not flush with hot water or use bleach or disinfectant within 24 hours of product addition.
