

DESCRIPTION: This premium additive helps all types of gasoline powered engines run clean and more efficiently. Special detergents remove deposits and clogs from fuel injection systems for better acceleration, no stall, stumble, or run-on. Dispersant and corrosion inhibitor additives clean gums, varnish, and corrosion deposits from fuel tank, delivery system and carburetors – and protects from further corrosion. It extends engine life by eliminating intake valve deposits, and lubricating upper cylinders under cold start conditions.

This formula improves the performance of all gasoline powered engines, including those with catalytic converters and computer-controlled engines.
