

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Some materials that are chemical-resistant to this product are barrier laminate, nitrile or neoprene rubber, or viton. If you want more options, follow the instructions for category E on an EPA chemical-resistance category selection chart. All mixers, loaders, applicators, and other handlers must wear: long-sleeved shirt and long pants, and shoes plus socks. In addition, mixers and loaders supporting motorized ground equipment and handlers cleaning up spill or equipment must wear chemical-resistant gloves, such as barrier laminate, nitrile or neoprene rubber, or viton. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

FIRST AID

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

NOTE TO PHYSICIAN: Contains petroleum distillate - vomiting may cause aspiration pneumonia.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of the gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide may adversely affect non-target plants. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters or rinsate. This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

PHYSICAL AND CHEMICAL HAZARDS

Combustible. Do not store or use the product near heat or open flame.

**TOTAL
SOLUTIONS®**

TURF KING

ACTIVE INGREDIENTS:

Prometon:2,4-bis(isopropylamino)
-6-methoxy-s-triazine 3.73%
INERT INGREDIENTS:..... 96.27%
TOTAL.....100.00%

This product contains 0.3 pounds per gallon of Prometon.

Contains petroleum distillates, xylene, or xylene range aromatic solvent.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for additional
precautionary statements.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

Do not enter or allow entry until sprays have dried.

This product is designed for non-selective weed control in non-cropland areas such as parking lots, fence rows, railroad sidings, storage yards, around buildings or industrial sites.

Do not apply this product in a residential setting.

Weeds greater than 4 inches must be mowed, removed, or hoed into the soil prior to application. This product will not provide herbicidal action in the treated area unless application is immediately followed by watering the area with at least 1/4" of water or application of the product just prior to a rain event sufficient to penetrate to the root system of the target vegetation.

Mix 1 gallon of this herbicide with 10 gallons of water and apply uniformly over 1000 square feet of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when the applications are made during or after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1-1/2 gallons of this product with 10 gallons of water per 1000 square feet.

For control of hard-to-kill perennial weeds and grasses such as johnsongrass, bindweed and wild carrot, use 1-1/2 to 1-2/3 gallons of this herbicide mixed with 10 gallons of water per 1000 square feet. Although this product has considerable activity through foliar contact, much of its activity is through the roots and, therefore, adequate rainfall is necessary to move the herbicide into the root zone.

For faster top kill of existing vegetation, apply product diluted with diesel oil, fuel oil or weed oil.

Do not use this product on or near desirable plants, including within the dripline of the roots of desirable trees and shrubs, since injury to desirable plants and other vegetation may result. Do not use this product to sloped areas where desirable vegetation or nearby water bodies may be located downhill of the application area, since injury to desirable plants and other vegetation may result.

SPRAY DRIFT MANAGEMENT

A variety of factors including weather conditions (e.g. wind direction, wind speed, temperature, relative humidity) and method of application (e.g. groundboom sprayer) can influence pesticide drift. The applicator must evaluate all factors and make appropriate adjustments when applying this product. Use only Medium or coarser spray nozzles according to ASAE (S572) definition for standard nozzles. Do not apply at wind speeds greater than 10 mph.

For all applications, do not apply more than 60 gallons of this product per acre per year. Limited to 1 application per year. The maximum use rate is 0.20 lb ai/500 ft², or the equivalent to a maximum of 18 lbs ai/A.

STORAGE AND DISPOSAL

Do Not Contaminate Water, Food, or Feed By Storage or Disposal.

Pesticide Storage: Store in a dry place no lower in temperature than 50°F or higher than 120°F.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.
