

Product # 6360

Technical Data Report**TRAILERBRITE**
ALUMINUM CLEANER**DESCRIPTION**

TRAILERBRITE is a hydrofluoric acid based aluminum cleaner and brightener. Highly concentrated. Powerful. Contains a blend of acids, detergents and corrosion inhibitors that prevent acids from attacking metal surfaces. Removes oxidation, corrosion and scale. Leaves surface bright and shiny.

APPLICATIONS

For use by industrial plants, chemical plants, freight and trucking companies and buildings. Formulated specifically for aluminum trailers and tanks. Can also be used on steel surfaces and aluminum frames.

FEATURES & BENEFITS

- Oxidizes corrosion and scale
- Brightens surface
- Highly concentrated and powerful

SPECIFICATIONS

FORM: Liquid
ODOR: Strong Acid
COLOR: Blue
DETERGENCY: Excellent
TOXICITY: 1MG / M²
WETTING ABILITY: Excellent
STORAGE STABILITY: 1 Year +
COLD STABILITY: Excellent
PHOSPHATES: None

FLASH POINT: N/A
BOILING POINT: N/A
SOLUBILITY IN WATER: 100%
SPECIFIC GRAVITY: 1.1
% VOLATILE BY VOLUME: 96%
pH: <1
VISCOSITY: Thin
EVAPORATION RATE: Slow
BIODEGRADABILITY: Yes

LABEL INFORMATION**TRAILERBRITE**
ALUMINUM CLEANER

SPECIFICALLY FOR ALUMINUM AND STAINLESS STEEL TRAILERS. DO NOT USE ON OTHER SURFACES SUCH AS ALUMINUM WHEELS OR ALUMINUM ENGINE BLOCKS. IF SPLASHED ON GLASS, WASH OFF IMMEDIATELY. ALWAYS DILUTE WITH WATER BEFORE USING. Mix solution in a plastic or stainless steel bucket or sprayer. Make up only enough solution for the job at hand.

FOR CLEANING TRUCKS AND TRAILERS – Under average conditions of temperature (55-85°F) and relative humidity (50%), a solution of 1 part concentrate diluted with 20 parts water will give good results. Since lower temperatures slow cleaning action use a stronger solution on cool days.

NOTE: Working in hot direct sun may cause streaking – wet down sides of trailer to cool surface before applying. Whenever possible, it is better to work in the shade.

TO APPLY: Spray product and agitate with a soft brush. Always work from the bottom up to avoid streaking and also work only small areas so surface does not dry out before rinsing. After Solution has set for about 5 minutes, flush thoroughly with water, being sure to also rinse adjacent concrete ramps, floors and drains.

DANGER: Toxic if swallowed, in contact with skin, or if inhaled. Causes severe skin and eye damage. May cause respiratory irritation. May be corrosive to metals.

Wear protective gloves, protective clothing, eye protection, and face shield. Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product. Do not breathe fumes, mist, vapors, or spray. Use only outdoors or in a well-ventilated area. Store in a well-ventilated place. Keep container tightly closed. If swallowed: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center or doctor. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center or doctor if you feel unwell. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center or doctor if you feel unwell. Take off immediately all contaminated clothing and wash it before reuse. Store locked up. Dispose of contents and container in accordance with local, state, and national regulations. Keep only in original container. Absorb spillage to prevent material damage. Store in a corrosive resistant container with a resistant inner liner.

CONTAINS (CAS#): Water (7732-18-5), Hydrogen Flouride (7664-39-3), Sulfuric Acid (7664-93-9), 2-Butoxyethanol (111-76-2) Acid Foamer (N/A).
