

Leak Detector

QuestSpecialty

Leak Detector

BUBBLY's advanced sensitive solution is formulated to pinpoint even the smallest of leaks. Suspends dirt so the particles will not drastically reduce the sensitivity of BUBBLY. Use to identify refrigerant, nitrogen and natural gas leaks.

DIRECTIONS FOR USE: Spray or swab product to thoroughly coat surfaces to be checked. Visually inspect for bubbles. Micro leaks will produce a cluster of small bubbles. All surfaces previously coated can be re-checked by wetting areas with water. Turn on system for 5-10 minutes, then visually inspect for vibration leaks.

MODO DE EMPLEO: Rocíe o cubra el producto bien profundo a las superficies que debe ser revisada. Inspeccione visualmente para burbujas. Fugas micros producirán burbujas pequeñas. Todas las superficies previamente cubiertas pueden ser revisadas mojando las áreas con agua. Prenda el sistema por 5-10 minutos, después inspeccione visualmente para fugas de vibración.

Leak Detector
Detector de Fugas

Non-Toxic • Non-Corrosive • Biodegradable
Easy To Use • Oxygen Safe

CAUTION/PRECAUCIÓN

KEEP OUT OF REACH OF CHILDREN
